

# FULLBAY + WORLDPAY INTEGRATION

Taking payments in the shop and on the side of the road has never been easier. Accept credit card payments right inside Fullbay and get your customers back on the road faster—no more late-night payment verification.

## Our Worldpay integration allows your shop to:

- ✓ Take payment on the side of the road
- ✓ Safely and securely store customer payment information
- ✓ Have funds available within 48 hours after payment has been processed
- ✓ Connect physical card readers to Fullbay for in-shop payments
- ✓ Process payments from Apple Pay, Google Pay, swipe, chip, and tap credit
- ✓ Import payment data directly into QuickBooks

## What is the impact on your shop?

- ✓ Empower mobile technicians and increase uptime by processing credit card payments while off-site
- ✓ Fewer errors in processing mobile repairs—no more telephone game with dispatch

## How does the integration work?

1. Worldpay will provide a credit application form
  - a. There is a link to get started on the integration page within the Fullbay app
2. Once signed up, enter the authorization codes in Fullbay
3. Connect the card reader obtained from Fullbay
  - a. Skip this step if you did not need a card reader
4. Receive payments in Fullbay as usual
5. Swipe, tap, or insert a card using a Worldpay-compatible card reader or key in card information directly into Fullbay
6. Get your money in 48 hours
